

错误代码 E36 对 7798 数据记录器意味着什么？我在手册或网站上都找不到。

回复：

E36 表示电源电压过低，请检查适配器或目标电源。

Question

What do error code E36 means for the 7798 Datalogger?

I can't find it in the manual or on the website.

Reply:

E36 means supply voltage too low, please check on the adaptor or the target power.
